

## DR NOUSHIN ATTARI

BDS, MFDS RCS (Eng), M Clin Dent (Paed), M Paed Dent RCS (Ed)

## CHAIRMAN'S COMMENTS:

*"Dr Attari is a full time, experienced, Paediatric dentist who brings the real world and real practice to her lecture. She runs a very busy Paediatric dental practice in the west end. Her practice is predicated on educating children of all ages, about oral health. She does this with a team of skilled hygienists, who educate and motivate children to clean their teeth in a unique, non-threatening, purpose built room without dental chairs.*

*Dental Trauma, is an area of dentistry we are not exposed to everyday, but when called upon to deal with, we need to know what we are doing. There is no doubt that how the dental trauma is dealt with immediately after the incident, has a direct effect on the long-term outcome for the tooth and patient.*

*This is one area we always need updating in and is a lecture you cannot afford to miss."*

## UPDATE ON MANAGEMENT OF DENTAL TRAUMA.

### PROFILE

Dr Attari qualified from Guy's Dental Hospital, London in 1996. She then held hospital posts in maxillofacial surgery and paediatric dentistry at Guy's Hospital. After a period in general practice, she began a three-year specialist training programme in paediatric dentistry at Eastman Dental Institute from which she qualified as a specialist paediatric dentist in 2001. She is a Member of both the Faculty of Dental Surgeons of the Royal College of Surgeons of England, and Royal College of Surgeons of Edinburgh in Paediatric Dentistry

Dr Attari was an Honorary Lecturer at the Eastman Dental Institute and has worked as a specialist involved with the postgraduate teaching program. She has also worked at Great Ormond Street Hospital.

Dr Attari has lectured nationally and internationally on subjects related to paediatric dentistry
